About

Jeurgens

In 1921 Karel Jeurgens started his own bakery in Aarle-Rixtel specialised in traditional biscuits and bakery products. In the following years the business grew and this small bakery grew into a modern factory, mainly due to the popularity of Sponge Fingers.

Our benefits:

- Family company, third generation:
Frank Jeurgens
- Two production sites and third in development
- Possibility to produce and develop tailor made products
- Own NPD department

The place where
it all started
